Education

DY PATIL UNIVERSITY PUNE AMBI

B.Tech in Information Technology

Sep 2022 – June 2026

Pune, Maharashtra

Experience

Labmentix EdTech Pvt. Ltd

July 2025 – December 2025

Web Development Intern

Remote

- Built and deployed **15+** scalable **RESTful APIs** using **Node.js** and **Express.js** with **JWT-based authentication** and **role-based access control**, supporting **5K+** monthly users with **99.9% uptime**.
- Optimized **MongoDB** schema, indexing, and queries, reducing **API latency** by **40%** (**300ms** → **180ms**) and improving backend performance under load.
- Collaborated in a **5+ member Agile team**, contributing to **20+ feature releases** using **Git workflows**, improving code quality and reducing bugs by **25%**.

SmartBridge (AICTE Certified Program)

July 2025 – August 2025

Full Stack Development Trainee

Remote

- Completed an **AICTE-certified Full Stack Development program**, building and deploying **end-to-end web applications** using **React.js**, **Node.js**, **Express.js**, and **MongoDB**.
- Implemented **RESTful APIs**, practiced **Git version control**, and followed **production deployment workflows** through structured project sprints.
- Developed hands-on experience in **full-stack architecture**, improving application scalability and maintainability.

NYX – Network for Young Xplorers

January 2024 – March 2024

Full Stack Developer Intern

Remote, India

- Built and deployed **full-stack web applications** in a startup environment using modern frontend and backend technologies.
- Collaborated in a **fast-paced, innovation-driven team**, gaining practical exposure to real-world development cycles.
- Strengthened **cross-stack development skills**, contributing to both frontend UI and backend logic implementation.

Academic Projects

TradeXpert | Smart Trading Platform | Backend & System Design Project

October 2025

- Built a trading platform with secure login and transaction features, handling **1000+** trades/day with **99%** reliability
- Developed backend APIs and optimized database queries, reducing response time by **35%**
- Added real-time portfolio tracking and stock updates, improving system performance by **40%**

Disease Prediction System | Machine Learning Project (Team Project) | GitHub

January 2026

- Created a disease prediction system using Machine Learning models (Logistic Regression, Decision Tree, Random Forest) with **90%+ accuracy**.
- Used Python libraries such as **Pandas**, **NumPy**, and **Scikit-learn** for model building and data preprocessing, improving performance by **20%**.
- Developed and deployed a **Flask-based web application** for real-time predictions, improving response time by **30%**.

MeetSync | Video Conferencing App | Full Stack Project

December 2025

- Independently developed a real-time video conferencing application using **WebRTC** and **WebSockets**, supporting multi-user communication with **99% connection stability**
- Designed and implemented features including **video/audio calling**, **screen sharing**, and **real-time chat**, reducing communication delay by **25%**
- Built and deployed a scalable backend and responsive frontend, improving system performance and user experience by **35%**

Technical Skills

Programming Languages: JavaScript (ES6+), Python, Java, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Responsive Design, Component-Based Architecture

Backend: Node.js, Express.js, RESTful APIs, GraphQL, JWT Authentication, Microservices Architecture

Databases: MongoDB, MySQL, PostgreSQL, Redis

GenAI & AI Tools: OpenAI API, LangChain, LLM Integration, Prompt Engineering, Retrieval-Augmented Generation (RAG), Vector Databases (Pinecone, FAISS), Hugging Face Transformers

Tools & DevOps: Git, GitHub, Docker, Kubernetes, CI/CD Pipelines, Linux, Postman

Cloud Platforms: AWS (EC2, S3), Firebase, Vercel, Render

Mobile (Familiarity): React Native, Kotlin (Android), Swift (iOS)

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, System Design

Achievements & Certifications

- **Winner of Thinkathon 2025 (Team: Hostel Boys)**; built a scalable full-stack system with optimized backend APIs and efficient database design, outperforming competing teams.
- **Smart India Hackathon (SIH) 2023–2024 Participant**; engineered an innovative solution addressing real-world problem statements under national-level evaluation.
- **Student Council Member & TPO Representative (2022–2025)**; organized 10+ technical events and improved placement coordination.
- **Oracle OCI 2025 Certified Developer – Professional**; demonstrated expertise in cloud architecture and scalable systems.
- **GeeksforGeeks GfG 160**; solved 160 DSA problems across core topics.
